999 E Street, NW.  
Washington, D.C. 20463

ID Number: C00340190

Reference: 30 Day Post General (10/1/02-11/25/02)

To Whom It May Concern:

I have received your letter regarding the above referenced report, thank you for the opportunity to respond.

The Barr Leadership Fund is familiar with, and practices the best efforts standard. All of our original solicitations contain the request for the appropriate information and that it is a federal requirement for us to ask for this information.

If the information is not provided, we make an additional request in writing within 30 days again stating that it is a federal requirement for our committee to request this information.

Finally, when and if the information is received, it is reported on an amendment or on the next scheduled report. In the case of this report, an amendment to replace the original report has already been filed with the required information. This amendment also addresses the other point in your letter; the addition of the office sought and state information for candidates to whom contributions were made.

Please feel free to contact our committee if any further information is needed.

Sincerely,  
Paul Kilgore  
Accounting
