

I am writing in response to your letter dated December 8, 2006. In your letter you had some concerns regarding payments for administrative expenses.

The committee currently has one employee. The committee owns the building that their office is in and pays property tax as due by the county. The committee is run by volunteers. Expenditures for payroll, professional fees, office supplies, telephone expenses, fundraising expenses and other services have been reported for all committee activities.

Sincerely,
Anjali Lathi
Treasurer
