We write in response to your letter dated November 26, 2013 regarding the Committee's October Monthly Report.

Regarding the referenced contributions, Local 399 International Union of Operating Engineers Federal PAC (FEC # C00432815) reported its contribution to the Committee on Line 23 of its October Monthly Report; the Committee is amending its report to provide the correct FEC identification number for this donor.

Each of the other referenced donors disclosed their contributions as a nonfederal donation on line 29 of their reports, and not as a federal contribution on line 23. While the contributions were eligible for deposit in the Committee's federal account, the Committee has transferred them to its nonfederal account, to respect the donors' evident preferences regarding their treatment. The Committee's Year-End Report will disclose this transfer.

Regarding Schedule H4 of the Committee's report, the Committee is amending its report to disclose the allocation ratio on Schedule H2.

Regarding line 11(c) of the Committee's report, the Committee is correcting its procedures for reporting identification numbers.

If you have further questions, please contact the Committee.

Sincerely yours,

Michael Kasper,  
Treasurer
