This submission is in response to the Commission's December 2, 2005 letter. The Committee had no federal election activity during the periods in question. The transfers to the state non-federal committee during the periods in question totalled \$12,500. This amount represents approximately 17% of the disbursements from the state non-federal committee. The disbursements from the state non-federal committee were mostly for non-federal Virginia election activity and some administrative costs. If you should have any questions, please contact us.
