After filing the October Quarterly Report (07/01/12 - 09/30/12), errors were discovered in the original report.

Schedule A of the report disclosed various contributions designated for the primary. The candidate did not run in the primary. This was a clerical error made when the data was entered. The report is being amended to show all contributions as designated for the general election.

The Committee received a contribution from a state licensed political committee. The Spirit of 1854 Committee has taken steps to ensure that the contributor used permissible funds to make the contribution. The committee making the contribution followed all state and federal laws regarding the contribution.

On Schedule B supporting line 17, we have amended the report to make sure all disbursements have a purpose.

On Schedule B supporting line 17, we have clarified and added more information for the purpose previously described as "event".

Several disbursements were identified as "staff salaries". The Spirit of 1854 Committee does not have any employees. These descriptions have been changed.

The Committee has accrued interest on its outstanding loans and disclosed this accrual on Schedule D.

The Committee is amending its report in its entirety.
