The following statement is offered as an explanation of why the following amendments are being made to the following 2012 reports: April Quarterly, July Quarterly, October Quarterly, and Post-General.

The Portland Cement Association Political Action Committee amended these filings because credit card contributions reported by the PAC, based on information from the contributors, were never transferred by the credit card vendor to the PAC. Repeated attempts were made to obtain these contributions from the vendor without success.

The Committee has now replaced the vendor, and these amended reports accurately reflect the cash on hand in the Committee's bank account during 2012.
