

This is in response to your letter of July 16.

The committee amended its April Quarterly report on April 17, 2008 to disclose additional receipts totaling \$20,161.55. The receipts were from a payroll deduction at the end of the quarter. The information for the receipts was not received until after the report was filed. The report was amended two days after the filing deadline.

With respect to the refunds to Paul Thiverge and Raimo De Vries, their contributions never aggregated over \$200 within a calendar year; therefore they were never itemized on the committee's reports.
