This submission responds to the Commission's followup letter of August 22, 2002 regarding the committee's 2001 Year-End Report. Our best efforts policy is as follows: All solicitations contain a clear and conspicuous request for occupation and employer. It also contains the language that the FEC requires the committee to obtain this information for all donors whose contributions exceed \$200, in the aggregate, in a calendar year. If the information is not received, the committee makes a written request for the information within 30 days of the receipt of the contribution, provides a return envelope and does not make any solicitation at the time the request is made. If information is received subsequent to the filing of a report, the committee provides an amended report to the Commission either at the time of the next regularly filed report or as soon as the information is received.
