The May and June monthly FEC reports have been amended to address an issue discovered with donor duplication. A small number of donations made in April and May were attributed to duplicate donor records upon import into the filing software. This caused some donations to be unitemized because the donor's previous donations existed in a different donor record. By merging the duplicate donor records, a small number of donations made in April and May now itemize on the amended reports that did not itemize on the original reports. Importantly, the total financial activity reported has not changed. Total receipts and cash on hand remain the same. By merging these donor records and amending these reports, the Column B aggregate figures and donor CYTD figures are correct.
