Re: April Quarterly FEC Form5 Report (01/01/08 - 03/31/08) Planned Parenthood Action Fund Inc.
Identification Number C90005471

Dear Ms. Bacon:

This letter is intended to notify the Commission and the public at large that we fulfilled our electronic reporting obligation for the April Quarterly Report on April 15, 2008. As you know, the current electronic filing specifications do not accommodate the ability to file a Form 5 Independent Expenditure Report which covers data filed in earlier 24- and 48-hour reporting periods. Therefore in order to meet our public disclosure obligation, our vendor worked with Commission staff and ultimately filed the quarterly data (all of which had been disclosed on earlier filings) as if it were an Amended 48 hour report covering only March 31, 2008.

In order to be clear, we are providing this additional explanatory notice. As you know, both the Reports Analysis Division and the Electronic Filing Division have been notified about the filing difficulties, and we are assured that technical support is upgrading the system to allow for smoother filing in the future. While it was suggested that a paper filing could also be submitted, we are satisfied that the data included on the filings posted electronically best provides the public with full disclosure of our activity.

Sincerely,

Norman Greene
Treasurer
