Dear Mr. Buckley,

As per your request, this is an additional clarification of the information provided in our reply of January 26, 2010.

With regard to the missing information about occupation and name of employer for some of the donors listed in the above referenced report, we did comply with 'best efforts' to obtain this information by including a clear and conspicuous request for the contributor information in our solicitation as well as informed the contributors of the requirements of federal for reporting such information. In addition, we made one follow up request in writing within 30 days of receipt of the contributions. This request did not contain any additional solicitation for contributions. In addition, this request contained a return envelope for the donor to respond back with.

Sincerely,

Julie Versnel
