

Dear FEC~

Despite numerous telephone calls to the software department, we were unable to resolve the following problem and therefore our 2007 Year-end filing, FEC Form 3X, is incomplete.

The Year-end Form 3x as originally prepared was 100% complete and accurate until we downloaded the new version of the FEC software, version 6.1.1.3 which completely wiped out

The information which is missing from our Report but which is provided below and will continue to be provided as such until the software technical people fix the problem all of which has

been explained in excruciating detail in numerous voicemails to Jodi Winship, our Reports Analyst, and software technical support. Re: Pages 38-50/50, Lines 23, in the following
