

This is in response to the letter dated 5/4/11 referencing the 2010 Amended Year-End Report (11/23/10-12/31/10):

Payment for 'Absentee ballot mailing' was generic absentee ballot activity that made no mention of a specific federal candidate and is not allocable to any candidate.

All payments for 'Non-allocable mail' were made for mailings in which volunteers had substantial involvement with each mail piece and are not allocable to any candidate.

All payments for 'Auto calls' were made for an activity that was generic party activity and did not promote, support, attack or oppose any specific federal candidate and are not allocable to any candidate.
