I am writing in response to a letter the FEC sent to Chubb Group PAC's treasurer on December 20. The letter states that the PAC failed to include the time period of October 1 to 17 during its post-general report. Although it was not technically required because the PAC did not have Federal activity during that time, the PAC attempted to file a pre-general report that includes that time period, but after speaking with the FEC, it was confirmed that the Commission did not receive it. I have resubmitted that report today. Please let me know if you have any issues or questions regarding it. Thank you for your understanding.
