To Whom It May Concern:

The Committee has become aware that some expenditures were not reported on prior reports. We have contracted an accounting firm to help reconcile the reports to records of Committee activity. As soon as the accounting analysis is finalized, we will make all necessary amendments. When these necessary amendments are itemized and reported, the cash on hand balance will be reduced. We will at that time have to amend this report to reflect the adjusted balance. We were unable to complete the reconciliation before this report was due.
