Per conversations with FEC analyst Michael Adamsky, the committee is amending both the 2018 October quarterly report and the termination report in response to the request for additional information dated 3/17/2019. At the time of the original independent expenditure disbursement on 9/24/2018, it had not been determined how much of the expense would be allocated to each election contest. Therefore, the disbursements were not itemized. The independent expenditures were itemized on the 48 hour report filed 10/12/2018. The amendment to the October quarterly itemizes the independent expenditures, and the amendment to the termination report includes the same information as memo entries. These amendments were filed on 4/18/2019.
