To Whom it May Concern,

Please note that Byrne for Congress (C0054673) attempted to file the 30 day post (special) general FEC report on January 21st 2014. The committee received a message from the FEC system that the report was unable to be filed due to the wrong ending date for the reporting period.

On January 22, 2014 the Committee contacted the Commission and learned that the Commission failed to update its system to include the special election date. Following the Commissions update the committee promptly filed the post-election report.
