

The committee is re-filing Form 1 as requested by your January 14 letter. The Form 1 instructions, however, do not distinguish between paper and electronic filers in advising as follows: ""If 'AMENDED' is checked, complete Lines 1 through 4. With respect to Lines 5 - 9 include only the change(s) in information previously submitted."" The instructions otherwise do distinguish between paper and electronic filers. This is misleading. We suggest that the Form 1 instructions be revised to state that electronic filers (or all filers) must complete all sections of an amended Form 1, and that the Commission refrain from requesting re-filings of an amended Form 1 from committees that comply with the current instructions until those instructions are changed.
