Dear Sir or Madam:

I am filing this Form 99 in order to explain an increase in our Cash balance of \$2,062.92 in our year-end 2020 Form 3x filing.

This amount enables us to reconcile our Cash balances in our records and Bank Statements to the Cash amounts that we have reported to the Federal Election Commission. We have been unable to determine exactly what was causing the difference but the problem pre-dates by my taking over the PAC reporting responsibilities by several years.

We have increased our internal review processes and believe that this should be a one-time issue and that from this point forward all of our reports will be supported by our internal records.

Thank you for your consideration of this response.

Take care,

Joseph S. Bradley
