

February 4, 2009

Federal Election Commission
Edward Ryan
Senior Campaign Finance Analyst
Reports Analysis Division

This Form 99 is response to FEC letter dated January 7, 2009 related to June and July Monthly report filed.

Item 1:

Best effort procedures are as follows. The Committee includes clear and conspicuous request for employer and occupation information that is required by federal law on each original solicitation. If the information is not included with the contribution, a separate stand alone request in writing or via phone is made within thirty days of receipt. This second request informs the contributor of the federal law requirements and does not solicit another contribution. In either case, the campaign documents the request in writing. If and when the required information is received, it is included on the next report filing as a memo entry.

Item 2:

The term Generic GOTV should have been more detailed. The description should have read door-to-door get out the vote (which will be used on future reports). The term Victory is an in-house description for generic fundraising during an election year and will not be included on future reports.
