

This Form 99 report is being filed in response to the notice from the FEC that the May 29th 24-hour notice of Independent Expenditures Made and Contributions Received submitted by Susan B. Anthony List, Inc. appears to have been filed late. A timely 24-hour notice was filed on May 26th, the date the expenditures began and that report appears on the FEC website. Acknowledgement was received from the FEC on May 26th that the report was received. Apparently, due to a technical issue with the FEC website, when the report was uploaded it contained only zero amounts. This had not happened previously and it was assumed that the report on file with the FEC contained the correct numbers. It wasn't until May 29th when the report was reviewed online did it become apparent that the report did not contain the correct figures. As soon as it was realized that the initial report did not contain the correct amounts, an amendment was filed disclosing the actual amounts expended and received.
