

RE: October Quarterly Report (7/1/10 - 9/30/10)

The following is in response to the RFMI mailed on November 24, 2010:

1. Our committee is assessed a quarterly fee based on the usual and normal charge for services such as phone, fax, printer and copier usage, and storage space, as well as 3 hours each month of staff time by the Thornberry for Congress Committee (TFC). The amount paid each quarter to TFC, \$471.52, is based on a percentage of that committee's operating costs per quarter for basic overhead expenses. Any additional charges for shipping, mailing supplies, and postage are paid directly by our committee. This fee was determined to sufficiently account for the usual and normal charge for any services such as those listed above provided by TFC, and thus, no in-kind contribution is being made to our committee.
2. The disbursement reported on August 26, 2010 to McKinley for Congress was mistakenly categorized as a Primary 2010 contribution. That disbursement record has been updated to reflect a General 2010 disbursement, and the entire report and subsequent reports have been amended accordingly. Please see Amendment FEC-520328 which corrects this mistake and supercedes FEC-499567.
