Re: 30 Day Post-General Report (10/20/16-11/28/16)

To Whom It May Concern:

When the issue regarding the 24 hour report was brought to our attention we began an internal review. We were able to confirm dozens of 24 hour reports containing over six million dollars in expenditures. The committee clearly had a system in place to report these expenditures in a timely manner, to be transparent and make the public record complete. It appears the report in question is an exception. The committee plan to redouble its efforts in this area to ensure this doesn't happen again.

Sincerely,
Reform America Fund
