Response to request for additional information:

Item #1: The excess contributions were recorded in the name of one spouse. The contributions should have been split in the names of both spouses. Corrections have been made to illustrate the individually allowed donations in the name of each spouse.

Item #2: Attempted to locate and correct the needed election designations. All Designations should be G2022.

Item #3: Check was received without any identifier on the check for name or address. We are attempting to identify the signature and potentially make a connection with the bank that the check was written on to learn the donor contact information.

Item #4: Contribution from the Limited Liability Company was actually a donation from the owner. The data set has been corrected to illustrate a donation from the owner, not from the company.

Item #5: The Organizations listed are State Legislative Accounts able to receive donations from individuals and give to the campaign. They have sufficient funds.

Item #6: Form 3z has been completed.

Item #7: The committee attempted to remain in compliance with the 48 hour reporting mandate. All contributions were included in the Post General Report.

Item #8: We have entered FECfile all the contact information, employer and occupational information to which we have access. Attempts continue to be made to learn the contact information of those that are not on file. Letters have been sent to those for whom we have addresses but no occupation or employment information.

Item #9: Data set has been updated.

Item #10: Description has been updated

Note: It was noticed that there were receipt transactions that were duplicated on the original report to include dates of 10/20/2022 10/26/2022. These duplicate entries were deleted. The result will illustrate receipts on the amended report will be less than the original report.
