Re: Google LLC NetPAC (C00428623) Year-End Report (11/24/2020 - 12/31/2020)

Dear Mr. Adamsky:

Google LLC NetPAC (Committee) submits this Form 99 Miscellaneous Report in response to the Federal Election Commission (Commission) Request for Additional Information (RFAI) dated March 31, 2021.

The Committees Form 99 filed with the Commission on January 29, 2021 contains all relevant information regarding the misappropriation of Committee funds occurring in December 2020. Per our phone call on April 5, 2021, we understand that the RFAI was intended to serve as an acknowledgement of the external fraudulent activity and the corresponding Form 99 and that the Commission is not seeking any further information at this time as all relevant information was previously provided.

Since the submission of the Form 99 on January 29, 2021, on April 1, Wells Fargo notified Google that they were unable to recover the Committees funds. The fraud case has now been closed by the bank.

We hope this information resolves any questions you may have about this report. If you require any additional information, please feel free to contact Erin Lama, external counsel for the Committee.

Sincerely,

Seth Webb
Assistant Treasurer
Google LLC NetPAC
