The Committee is in receipt of correspondence dated February 8th regarding a referable issue relating to the October 2023 Quarterly Report, and offers the following response -

At the time of the announcement of the Congresswoman's extenuating health circumstances and her resulting decision to no longer seek re-election, there was internal miscommunication regarding the timeline for the campaign to cease ongoing operations. This was due to the uncertain nature of the Congresswoman's health issues, as well as the resulting focus on the logistics surrounding said issues.

Once the internal decision was finalized and communicated to the campaign staff and compliance team, the Committee refunded those contributions that had come through following the announcement.

The campaign confirmed that all contributions received after the decision to cease ongoing operations were swiftly refunded as well as all contributions designated for the Committee's general election.

These refunds were reported in the Year End Report submitted on January 31, 2024.
