GA

30061

Reference: 12 Day Pre-Primary Report (04/01/2026-04/29/2026)

We are in receipt of the Commissions letter regarding the above referenced report. Thank you for the opportunity to respond.

Our committee is aware of the requirements around 48-hour notices and have in place a system to capture and report all such transactions. In this case, the transactions were earmarks and were imported into our database for capture. In that process, the dates for the earmark and the conduit werent consistent and that led to them being left off the subsequent report. We have revisited that process to ensure that it doesnt happen again.

Our committee successfully reported almost 300 last minute notices during this election season. The transactions in question represent approximately one percent of the total. We take this reporting requirement seriously and feel confident we are well positioned moving forward. Please let me know if I can provide any further information.
