RE: July Monthly Report (6/1/2012-6/30/2012)

Dear Ms. Miller:

This letter is in response to the Commission's request for additional information related to the Calendar-Year-to-Date Per Election for Office Sought total for the 2012 General Presidential Election on Schedule E of the above referenced report filed by the Service Employees International Union Committee on Political Education (SEIU COPE).

The Committee has determined that an error with the software used to file SEIU COPE's disclosure reports resulted in the double-counting of independent expenditures that were initially disclosed as memo entries, because they had been disseminated, but not yet paid. These IEs were inadvertently counted twice, first when they were listed as memo entries, and then again when the independent expenditure was actually paid.

An amendment to the July Monthly report has been filed to correct this issue. However, it should be noted that the Committee's software vendor calculates the calendar-year-to-date per election totals somewhat differently than the FEC's reporting software calculates these expenditures. Rather than immediately count the independent expenditures that are first disclosed as memo entries, as the FEC's software does, the Committee's software does not add the cost of an independent expenditure to the calendar-year-to-date per election for office sought total until the independent expenditure is actually paid. Accordingly, only when the committee discloses payment of the independent expenditures, will our totals match the Commission's totals.

Very truly yours,

Mark Schneider
