I just submitted an amended 1st Quarter 2026 filing. This is the last set of corrections that I am aware of. I corrected two errors.

First, I itemized the transactions on two loans. I had made the mistake of thinking that loans didn't need to be itemized until they were repaid. This is the last batch of transactions to fix that misunderstanding.

Second, throughout the campaign I took my mileage for travel and converted them into loans from myself to the campaign at \$0.725 per mile, which is the standard IRS rate. I had bundled 18 trips into two separate loans, one for \$653.96, the other for \$5,868. I realized this was the wrong way to do this. I deleted the loan for \$653 and replaced it with 3 separate in-kind donations. I deleted the loan for \$5,868 and replaced it with 15 separate in kind donations.

I have accurate records for the dates, distance and destination for each trip.

Thank you very much for your patience. I am more sorry than you can imagine that I never got enough donations to hire a treasurer.
