The Committee received a request for additional information (RFAI) dated August 7, 2022, regarding the Committee's July Quarterly Report (04/14/2022 - 06/30/20220). The RFAI noted three items.

1. The Commission noted three apparently excessive contributions. The Committee appropriately reattributed the excess portion of these contributions to the spouses of the original donors. The reattribution of Scott Tucker's contribution should have been reported on the original report. An amended report filed today corrects that error. The other two apparently excessive contributions were reattributed after the end of the reporting period and are properly reported on the Committee's October Quarterly Report.

2. The Commission noted several contributions designated for the primary election reported as having been received after the date of the primary. The bulk of these contributions were, in fact, received prior to the primary date. One of the Committee's contractors entered the contributions using the date on which he added them to the database, rather than the date on which they were received. Two of the thirty-four contributions that appeared on the original report as having been designated for the primary election, but received after the date of the primary were, in fact, received after the primary and should have been designated for the general election. The amended report filed today corrects the date of receipt on thirty-two contributions and corrects the election designation on two contributions.

3. The Commission noted that the Committee may have failed to file 48-hour reports for large contributions received after the close of books for the 12 Day Pre-Primary Report. The Committee resolved this issue through Administrative Fine 4490 assessed on January 31, 2023, and paid on February 2, 2023.
