In a March 25, 2021 RAD letter concerning the October 2020 Monthly Report, item # 1. inquired about an increase in receipts and disbursements between the original report and the amended report. The difference was a matter of timing. The original report was filed several days prior to the due date. Subsequent to filing the original report, information was received regarding activity in the Trump Victory JFC and the resulting transfer of funds to the Republican National Committee. There was some question regarding if this information should be included in the October 2020 Monthly Report or the Pre-General 2020 Report. Once this was clarified, the October 2020 Monthly Report was amended to ensure that the JFC activity and the RNC transfer were reported correctly.
