Memo Item

A diagram of a rectangular frame structure. It consists of two horizontal beams at the top and bottom, connected by ten vertical supports. The top beam has a small square support at each end and at each of the eight vertical support locations. The bottom beam has a small square support at each end and at each of the eight vertical support locations. The vertical supports are represented by short vertical lines with small squares at their base and top, indicating they are pinned supports.

A diagram of a rectangular frame. It consists of a horizontal beam at the top and a horizontal beam at the bottom, connected by vertical supports. The top beam is a simple rectangle. The bottom beam is a rectangle with three small rectangular protrusions (ribs) on its bottom surface. The vertical supports are represented by short vertical lines connecting the top and bottom beams.

A diagram of a rectangular frame structure. It consists of two horizontal beams at the top and bottom, connected by ten vertical supports. The top beam has a small square support at each end and at each of the eight vertical support locations. The bottom beam has a small square support at each of the eight vertical support locations. The vertical supports are represented by short vertical lines with small squares at their base and top where they meet the beams.

A diagram of a rectangular frame structure. It consists of two horizontal beams at the top and bottom, connected by ten vertical supports. The top beam has a small square support at each end and at each of the eight vertical support locations. The bottom beam has a small square support at each of the eight vertical support locations. The vertical supports are represented by short vertical lines with small squares at their base and top, indicating they are pinned or fixed at those points.
