Dear USA and the FEC and anyone who is reading this document,
I would like to apologize for the confusing, conflicting information in my financial reporting. Currently I thought I had my FEC computer with me earlier in the year when I was in Switzerland and I didn't. then I thought it was here and I couldn't find it, when I say here I mean in West Virginia so.. twice this year I restarted filing which is anyways problematic and then more recently I discovered my original computer so I am back to the original computer which I will try to keep this one in use only for my FEC filing so I can make it through the next election cycle with just one computer so that everything is smooth and in the system properly. Then I tried some things earlier today which I don't know if they took or not. I have to wait a couple of days and see what the results are of my data input so.... bear with me as I figure out how to work with the app, and give you the information you want to know about my financial spending. Thank you for your understanding and I'll give another notice here soon letting you know if things are looking somewhat normal in my financial reporting. Best wishes and Peace be with us all and may Peace be with the USA... Susan Maude Buchser -Lochocki
