VoteVets.org Action Fund regrets that the October 15 Quarterly Report duplicating information regarding its independent expenditures already reported on the 7/15/22 48-hr report was filed late, due to an inadvertent miscommunication with our compliance firm.

While we note that the information on the October quarterly report was already a matter of public record, timely disclosed at the time the communications were disseminated, we have taken steps to ensure that the quarterly copies of those reports will be filed on time going forward.
