I was working last week posting new entries. A popup window opened stating a updated version of the accounting app was available and I was required to download. I downloaded and an error window said failed download and suggested I reload from the fec web page. I couldnt download that either. it damaged records from my hard drive pertaining to the accounting app.

What I want to know, I use a laptop designated specifically for FEC accounting; that is, with Microsoft Windows. Do you allow a someone who has this kind of problem to come in to your office to help me restore the app. 954-850-7887. I did speak to my FEC analyst Brian Burhn about this but he hasnt answered me yet.
