This is in response to your RAI - dated February 22, 2016.

This issue has been resolved and was addressed before the Request for Additional Information was issued. It relates to a conversion process when changing donor management and reporting software programs in December 2015 that affected allocating contributions to the right participant committees of the joint fundraising committee (Team Ryan). When discovered, Ryan for Congress and Team Ryan took immediate corrective measures in full compliance with FEC rules and regulations.

The permissible contributions were reallocated to the other participating committees of Team Ryan in accordance with the Joint Fundraising Agreement. Team Ryan subtracted the pre-reallocation amount over-distributed to Ryan for Congress from a subsequent Team Ryan distribution to Ryan for Congress in January.
