## Twelve Visions for America Web site: [www.DrBeebeForPresident.com](http://www.DrBeebeForPresident.com)

1st Vision Water independence! We can siphon off rising sea levels with fresh water lakes throughout the country! The BlueGreen Revolution! 20+ environmentally smart desalination plants on the western coast of the U.S.A. Paid for with 10% of our military budget (one in Hawaii, one in the gulf of Mexico and five on the East Coast) Millions of jobs would be created and the BlueGreen revolution would more than pay for itself over time. Water is a must for our Security. (NATO should provide more in desalination plants and water delivery systems than weapons!)

2nd Vision Every household and every citizen over 18 is encouraged to have a star trek like Phaser for self defense. Set permanently on stun you can knock people out but you can't mass murder people.

3rd Vision We need to treat our neighbors like neighbors. There is a de facto insecure open border. North America should have high tech, security savvy, open borders. All who enter or leave the US should have a Global Travel Card with their bio-metrics and itinerary

4th Vision The war on drugs is a travesty. Most drugs should be decriminalized with a mandate for education on the effects it will have on you and the consequences if you abuse them. Room at Hotel California, where you check out but you can never leave!

5th Vision All Government Offices in America should go with Apple Computer.

There are literally no viruses with apple and the security is light years ahead of other systems. If it is not an apple it is a lemon. No more getting 20 plus million Government employees hacked.

6th Vision All the Beebe cabinet does yoga and meditates, we need a Spiritual Awakening in America Government should never establish a religion but Government should always be informed by the best of religion. It was Abraham Lincoln who said give me a Church with just the Great Commandment and I will join that Church. Love of God and neighbor is the simple truth of the Gospel. The rest is dogma. But if a candidate

believes the world began less than 10k years ago they should not be able to use the advances of science to advance ignorance of science.

7th Vision Ralph Nader 30+ years ago said at U.C.L.A. where I was a student, Our number one job in our life time is being a Citizen! As a right of citizenship all citizens should have access to cool, clean, clear, medicinal water, healthy organic food, basic shelter and health care. It should also be a right of citizenship to have a public education from preschool through college. A small fraction of the money sent overseas to escape taxes and fund military arms would pay for it. Voting is a prerequisite to Government Benefits, always a none of the above category! Privileges require Responsibilities! Vote!

8th Vision Dr. Beebe's emerging non profit is Unicology celebrating the oneness of all creation. I have a picture of my daughter on a recycled unicycle balancing a picture of the earth from space the caption reads, "Earth's Balance Depends on Us" Unicology celebrates that we genetically are more than 98% the same as human beings. It won the national competition for Gifted Magnet schools. Media loves to divide by race, religion ethnicity and social class but we are all one as Americans as Global Citizens and as Human Beings. Neither male nor female defines our humanity, if we breathe we have spirit and in the spirit we are One.

9th Vision The great writer Anonymous wrote, "Great country, lousy empire". We cannot be the United States of the World and yet we are the last best hope for giving quality leadership to what has become One World, One Global Community. Let us lead by example, bring peace on earth and letting it begin, to paraphrase the American song favorite, with us. Let us be responsible Global Citizens and lead in the ways of Peace!

10th Vision The Space program is a priority. We will eventually colonize maybe some of the 40,000 earth like planets that NASA says are out there. From velcro to telecommunications to Smart Phones and computers our travel in space has exponentially increased our understanding of the wonders of God's Universe.

11th Vision Henry David Thoreau said 150 years ago we need to evolve beyond eating other animals.

The China Study proved that an animal based diet is responsible for all of the diseases and a plant based diet is the way to prevent or reverse those diseases. Our country has too much dependence on prescription drugs and not enough emphasis on organic fruits and vegetables and clear, clean, cool, medicinal water. John Wesley wrote in 1788, "It is the way to cure most diseases." All animals should be treated humanely even those in the food chain!

12th Vision All new cars are electric or hybrid, or self driving by 2025.
