Our hearts are weighed down by gravity each day, which causes a little bit of stress and a little bit of anxiety, and in the long run causes death. Imagine doing heart surgery within Anti Gravity. The chances of the surgery would become 100% or more. I invented the Anti Gravity Pod to imagine medicine without strain, and Ive created nine more inventions to help America progress: #1 Wipe for fast hygiene; PAK PAK for water from air survival; Teeter Stick for surgicaltechnique practice and remote surgery; Smart Outlet 2.0 for safer charging; Ecomobl Cruiser as a new electric form of transportation; Eddys Scented Doors for longlasting fragrance and healthier environments; Glove On Time with a builtin time display and heating system; and the Static Pet Mat for easier pet hair capture. I will always invent, strengthen, and advance this nation I love. Future President Searls
