Amended April Quarterly Report (1/1-3/31/26), Received on 8/10/26

1)There are no excessive contributions on Schedule A for Kenson Group-KF, LLC. The election allocations to primary and general 2026 have been corrected to reflect \$500 to the primary and \$3,500 to the general due to the 10/23/25 \$3k P2026 contribution received. In addition, the election cycle to date has been corrected to reflect \$7k. On the prior amendment, there was a technical issue where the memo entries to Ken Fong were being aggregated into the election cycle total. Please see amendment filed on 9/2/2026.

2)There are no excessive contributions on Schedule A for Zeneca Inc. PAC or Alexion Pharmaceuticals PAC. The committees in question are multi-candidate committees that have a limit of \$5,000 per election. Previously, the committees had not been identified as affiliated but have now been updated to be affiliated. With the affiliation now in place, the correct allocations to primary and general 2026 as well as the correct election-cycle-to-date totals now show on the current version of the reports. Please see amendments filed on 9/2/2026.
