I mistakenly believed I had uploaded my end of year FEC report on the 30th of January. I amended it and when I uploaded it it told me it had already been uploaded, and I thought that meant I was finished. I called that day and spoke to an FEC analyst and he said (based on what I told him) that it was OK, to wait for a note from the FEC if it didn't get submitted.

I hgot that FEC note late on the 6th (today). I called and was talked through the correct process by Eliza (I was uto unclose, resave, and submit fresh). I did that just now and got a good submit.

I'm sorry for the delay -- it s due to my learning curve, which has been steep but I think I've got it now.

Evidence is that I know how to submit this Form 99 miscellaneous report! Please let me know if I need to do anything else and I hope I won't suffer and problem with the FEC as a result of my delay --it was a mistake, and made in good faith -- and is now corrected.

Thanks,
karen
