Rayville

State

LA

ZIP Code

71269-0539

In response to the RFAI dated January 12, 2023, for the 30-Day Post-General 2022 Report about the following four items:

1. Apparent excessive contributions from Priority Management Group, LLC- This contribution was mistakenly reported as one contribution of \$5,800 due to a software error when it should have shown up as a \$2,900 contribution to the 2022 General and a \$2,900 contribution to the 2022 General Runoff. The report has been amended to correct this error. Additionally, since there was no need for a General Runoff election, Priority Group Management, LLC was refunded the \$2,900 they donated towards the runoff election in February 2023. This refund will show up on the next report this campaign files.

2. Apparent Louisiana General Runoff election contributions from William Bailey, John Breaux, Nexion Health Fund, Susan Price, Teddy Darrell Price, Radiance Technologies PAC, and Johnny Reeves. These contributions were made before the 2022 General election. Since there was no need for a runoff election, the contributors listed were all refunded the amount they donated towards the runoff in February 2023. These refunds will show up on the next report this campaign files.

3. Column B figures for the Summary and Post-Election Details Summary Page information- Please note that the 30-Day Post-General report has been amended with corrected election cycle-to-date totals. Hence, column B's figures now match those in previous reports. This error was caused by the software using an incorrect threshold date when generating the report. I believe this error was caused due to the software getting thrown off by the campaign participating in a special election in March 2021, and by Louisiana elections being unique from the rest of the country. I have manually corrected this error in the software and amended the report to include the correct figures.

4. Missing 48-hour report notices: Please note that the two contributions in question were received by the campaign after the 48-hour report notice but were mistakenly reported as being received on the check date when the campaign filed its 30-Day Post-General report. The missing 48-hour report notices for these two transactions were filed on 2/9/2023. The campaign has also adjusted our procedures for contributions received during 48-hour notice periods to ensure this does not happen again.
