FEC MISCELLANEOUS TEXT RELATED TO A REPORT, SCHEDULE OR ITEMIZATION**Form/Schedule: F2N****Transaction ID :**

Project Stability: A New Era of Fiscal Sovereignty This plan represents an unprecedented shift in U.S. financial strategy, designed to resolve the national debt crisis and secure economic growth without placing any new tax burden on American citizens. The entire initiative is structurally protected by the principle that all funding for these goals comes from newly generated private revenue streams, not from traditional taxpayer income. 1. The Core Strategy: National Debt Repayment The plan is to pay down the trillions in national debt, as a result of the new patent-pending USPTO technology proprietary to Daniel Davenport Enterprises, LLC, known as Parcel-19. The vaulting mechanisms ensure that the \$1.9 trillion annual interest cost on the national debt is entirely covered. 2. The Private, Self-Funding Revenue Stream The actual repayment of the debt principal is funded by a high-yield, dedicated revenue stream managed by a private entity. This revenue is generated through two primary channels: Digital Commerce: Fees and transactions generated from the adoption of the new harm-free crypto coin with derivatives and underlying assets to be sold on the market, backed by a collateral layer of digital assets like \$HBAR, \$XRP, \$ADA, and \$AVAX. Financial Cycling: Revenue derived from the private entity, with all proceeds recycled directly into repayment phases. Annual Payment: The system generates a dedicated annual payment of \$2.11 trillion, structurally obligated to paying down the nations liabilities. 3. The Repayment Timeline and Efficiency The \$2.11 trillion annual payment is directed sequentially to extinguish all major national financial obligations: Phase 1: Initial Debt Reduction The plan immediately uses the funds to eliminate the first percentage of the national debt, completed in just 4.5 years. Phase 2: Reparations Obligation After the initial target, the next \$2.11 trillion payment is shifted entirely to reparations for slavery, fully extinguished in 5.21 years. Phase 3: Final Debt Elimination Once both obligations are met, the full force of the annual stream targets the remaining national debt. The plan demonstrates a path to 100% debt elimination achieved without a single penny of new taxes and within a single generation.
