Re: August Monthly Report (7/1/08-7/31/08)

We acknowledge that there are some inconsistencies in the July and August Monthly Reports as your letter describes. As we previously advised with respect to the June Monthly Report, they are due to an upgrading of the CWA-COPE PCC reporting software from a desktop version of NGP's ""Campaign Office"" software to an on-line version of that product. CWA-COPE PCC experienced technical problems with this transition, which have been substantially but not entirely corrected. When these corrections are completed, CWA-COPE PCC will file amended June and August Monthly Reports that reflect them. Those problems with respect to the July Monthly Report have now been corrected, and we are filing an amended report today.

Thank you,
