To: Shannon Ringgold:

In regard to your RFAI letter dated August 2, 2026, Matt Boenke for Congress amended its July 15 Quarterly report and the 12 Day Pre-Primary Report. The amendments were made to clarify contributions earmarked via the conduit Winred. Please note that the Committee reported all earmarked contributions made via Winred as of the original date those contributions were made. Some of those funds were not transferred from Winred to the Committee until after 6/30/2026 and 7/15/2026 respectively. Due to software limitations, FECFILE does not allow the original earmark date to be entered if its from the previous reporting period but transferred during the subsequent reporting period. On the original Pre-Primary report, some of the Winred memos in early July related to earmarked contributions previously disclosed on the July 15th Quarterly report.

The amended reports now include revised Winred conduit memos that relate to contributions from the same reporting period even if the funds were transferred from Winred after the reported period ended. This avoids the FECFILE software limitations described above and treats all Winred earmarked contributions as made and received during the same reporting period. The Commission allows approved third party software vendors like Aristotle to report Winred earmarked contributions in a similar manner as "received" by the Committee the same day the original contribution is made.

The amended reports disclose on the memo text page the total aggregate contributions made via Winred for the Cycle. All earmarked winred contributions that met the itemization threshold, were disclosed in the original reports during the same period the earmarked contributions were made. As a result, the cash balances and total contributions remain unchanged in the amended reports.

Sincerely,

Joel Jukus  
Treasurer
