RE: Amended October 2019 Quarterly Report (07/01/2019-09/30/2019), Received 01/31/2021
Dear Chris Jones:

This is in response to the questions posed in the RFAI for the period 07/01/2019-09/30/2019. The receipts were originally reported as \$1,195,996.27 for the period. The amendment filed for that reporting period reflects a revised amount of \$1,029,750.64. The amendment addressed an issue with the deposits in transit at the end of the reporting periods. Originally, the contributions were reported in the reporting period in which the contributions were entered into the reporting database, rather than the date on which the contribution was processed online, which was in a different reporting period. The dates of these contributions were corrected and changed to the processed date, rather than the deposit date, or the data entry date. These errors were corrected and carried through to amend all the subsequent reports, in order that the contributions were properly reported as received in the reporting period in which they were processed, rather than the date of entry into the Committees database.

With regards to the amendments related to disbursements, all were originally reported. However, there were expenses that were reported as the date in which they were entered into the reporting database, rather than the date the expense was processed or the date a check was written, which was in a different reporting period. Those expenses were reconciled and amended to reflect the correct amounts of the disbursements, rather than the errors that had been included in the original reports.

Please feel free to contact us if you have any further questions.

Sincerely,

Thomas Datwyler
Treasurer
Jim Jordan for Congress
