In response to RFAI dated 12/12/2023 regarding FEC3 covering 7/1-9/30/2023: The apparently excess contributions from Tim Rauscher and Kerry Slavensky were automaticaly posted to our filing software by the credit card processor with P2024 pre-populated for the transactions. The donations were processed automatically for the donors, who had pre-approved periodic contributions for the primary and general elections.

The apparently excess contribution from Congressional Leadership Fund was made by check and included in the memo line designation for the general election, which designation was missed during data entry. Note also that the donor appears to have two FEC id. numbers, leading the operator to consider them separate entities.
