To Whom It May Concern:

We are in receipt of the Commissions letter regarding the above referenced report. Please see below for our response.

Our committee filed a 48-hour report for a communication that was disseminated on 8-13-25. We thought we had all the costs associated with the communication at that time. But, a few days later, we received a production invoice that was part of that communication. Upon receipt, we amended the original report and filed to update the public record.

Our committee understands the importance of these timely reports. As evidenced by the dozens of 24/48 hour reports we filed timely and accurately, this circumstance was an exception. We will continue to revisit our systems to prevent it from happening again.
