In response to your request for additional information, dated 11/17/21, we have filed an amended report. Please note that neither of the excessive contributions noted on your letter were excessive contributions that the committee had not previously remedied. Both were data entry errors made while compiling the report.

The contribution that appeared excessive from Patrick Johnson, received on 9/2/21 should have been attributed to the general election, not the primary. That has been corrected on the amended report.

The \$200 excessive contribution from Gary Rose received on 9/16/21 was refunded on 9/30/21. It was inadvertently reported as a WinRed disbursement on our original report. That has been changed to a line 20a refund on the amended report, so the cash on hand was not impacted.

Finally, the transfers from Take Back the House 2020, were actually transfers from Take Back the House 2022, which has previously been disclosed on our Statement of Organization. That data entry error has been corrected on the amended report.
