Reference: October Quarterly Report (7/01/2022-9/30/22) and 12 Day Pre-General Report (10/1/2022-10/19/22)

To Whom It May Concern:

We are in receipt of the letters from the Commission regarding the above referenced reports. Please see below our complete response.

Our committee is aware of the contribution limits and prohibitions for political committees. We have in place systems that monitor and rectify these transactions when they occur. Our committee had a transition to a different treasurer during this timeframe that led to some of these exceptions. Where refunds are required for excessive contributions, contributions from prohibited entities or contributions from unregistered organizations, they were made on 12-12-22 and will be reflected on the committees Year-End report.

Some of the items listed have already been rectified and do not require further action.

Lets Get to Work PAC is a multi-candidate qualified committee (C00692327).
Missoula County Republicans contribution has been verified as federally permissible funds.
ONeal Electric is a partnership, and the contribution has been verified as federally permissible.
Beaverhead County Republican Central Committee contribution has been verified as federally permissible.
The Montana Gas & Oil PAC contribution has been verified as federally permissible.

We will continue to address temporarily excessive contributions as they occur from the high volume environment we experienced in the weeks around the election.

Best regards,

Zinke for Congress
