Re:RFAI due 3/31/2026

This committee reviewed its financial records to determine the reason why the Cash On Hand was adjusted before the previous filing. This Committee has determined that the combination of extraneous disbursements and missing contributions over the previous year creating the delta between the ending cash on hand for the 2025 Mid-Year Report and the beginning cash on hand for 2025 Year-End Report. The majority of the missing contribution are ActBlue contributions that did not download properly into our system.

In order to rectify this matter, this Committee will purge its ActBlue contributions from its account and then re-upload them to capture the heretofore missing contributions. Issues arising from non-Actblue-related contributions will be addresses as well. This committee plans to complete this process in time for its 2026 April Quarterly and file the required amendments along with the new report by April 15, 2026.

This Committee will file a follow-up response to this RFAI detailing the changes associated with the amendments.
